

## UVCADS, Electronics Group

**Address:** 12094 Anderson Road, #130 Tampa, FL 33625

**Phone:** 813-900-5075

**Email:** jeodonoghue.uvcads@gmail.com

## Variable Frequency Drives

### Service Pricing

UVCADS offers comprehensive variable frequency drive (VFD) service and diagnostics. The standard hourly rate is USD \$135 per hour. Time-and-a-half and double time are available when service occurs outside of regular business hours. Each service visit is billed with a **three-hour minimum**.

Travel time is billed at the **standard service hourly rate**.

Service type	Rate (per hour)
Standard service	\$135.00
Time-and-a-half	\$202.50
Double time	\$270.00

**Time-and-a-half applies to:** service exceeding eight hours in a single day and to work performed during normal business hours on Saturdays.

**Double time applies to:** service exceeding eight hours on a Saturday and for all hours worked on Sundays and recognized holidays.

**Three-hour minimum:** Billing for any trip is subject to a minimum of three hours. If the time spent on-site exceeds three hours, the actual hours billed will be calculated at the applicable rate.

### Drive Installation

Installation of VFDs is provided on a quoted basis. Each quotation includes the cost of the drive plus the labour required to install and commission it. The scope of the installation quote covers:

- **Trip and travel:** travel time to and from the job site.
- **Installation and interfacing:** mounting the drive, connecting power, and interfacing with existing controls.
- **Power-section setup:** configuring the VFD power section to meet the application requirements.
- **Commissioning:** setting parameters and verifying operation.
- **Warranty:** any requested extended or additional warranties are included in the quote.

All installation quotes are prepared individually based on the specific drive and application requirements.

## **VFD Sales**

UVCADS offers a complete line of variable frequency drives for sale. Pricing for VFD units consists of:

- **Drive price:** manufacturer's price for the selected VFD model.
- **Freight:** shipping costs to the delivery location.
- **Applicable taxes:** any sales, use, or other taxes required by law.

Manufacturer drive pricing includes all tariffs and charges billed by the manufacturer to UVCADS Electronics Group.

Optional services, such as extended warranties or technical support, can be added at the customer's request.

## **Accepted Payments**

UVCADS Electronics Group accepts multiple forms of payment:

- **Credit cards** – subject to a 3 % processing adder.
- **ACH payments** – paid via electronic bank transfer using provided banking information.
- **Checks** – accepted upon receipt.
- **Net 15-day terms** – available for customers with approved credit.

Deposits may be required for certain jobs and for VFD sales to new customers or customers without approved credit with UVCADS Electronics Group.

## **Notice**

These prices are subject to change without notification. Please verify current pricing with UVCADS Electronics Group.
